Subject: Question - Air Sample Analyses from within ASPECT cabin
Date: 06/30/2011 06:21 PM

Greg,

It is my understanding that Region 6 is initiating a purchase order with local laboratories to provide alpha spectroscopic analysis of air filters for Americium, Plutonium, Thorium and Uranium. During the ASPECT flights we are performing some low volume air sampling within the aircraft. We anticipate having 20 or so filters that would require analysis. Would it be possible to send our air filters through that regional contract for analysis?
